JOB DESCRIPTION

WORKING AT ANALYTICS8

As an Analytics8 professional, you will have the exciting opportunity to work with a variety of companies, ranging from Fortune 500 companies to small businesses. Each project and client is different, giving you the chance to advance your career as you learn about new industries, businesses, and technologies.

We are looking for people who are creative thinkers, problem solvers, and have excellent communication skills to translate between business terminology and IT logic.

DATA & ANALYTICS SENIOR CONSULTANT

Full or Part Time:	Full-time
Exempt or Non-Exempt:	Exempt
Billability Target:	76%
Sales Quota:	$0

SUMMARY

A Senior Consultant has deep technical expertise in implementing BI and DWH projects and has several years of successful consulting implementations. Senior Consultants are proficient at managing small projects and are able to handle the scope/cost/timeline tradeoffs for single projects. They are able to gain confidence of customers and have a track record of extending projects and identifying additional projects for customers.

A Senior Consultant should continue to broaden and deepen technical skills while starting to focus on business and project management skills.

While working at a customer site, Senior Consultants will take an active role in pursuing sales upsell opportunities.
